Github: github.com/quangiscoding | Portfolio: quangiscoding.github.io/porfolio/

EDUCATION

Bachelor of Science in Computer Science

Expected Feb 2027

Troy University – DTU Campus | Danang, Vietnam

- GPA: 3.94/4.0
- Fully funded scholarship recipient (Top 5 highest entry scores).
- Relevant coursework: Programming Fundamentals (Java), OOP (C++), Data Structures & Algorithms, Databases (SQL Server), Object-Oriented Analysis & Design, Numerical Methods

TECHNICAL SKILLS

Programming languages: Java, Python, C, C++ , Javascript(ES6+), HTML/CSS

Frameworks & Tools: React, Node.js, Express.js, MongoDB, Git/GitHub, VS Code

LANGUAGES

English: IELTS Academic 8.0 (Fluent)

Vietnamese: Native

PERSONAL PROJECTS

Think App | MongoDB, Express, React, Node.js

Oct 2025

- Built a full-stack MERN application (MongoDB, Express, React, Node.js) for creating, editing, and managing notes with a responsive, modern UI.
- Designed RESTful API, implemented efficient state updates and optimized client-server data flow.
- Deployed and configured the app for production.

My First To-do List | HTML, CSS, Javascript

Nov 2025

- Built an interactive to-do list application using vanilla JavaScript (ES6+).
- Implemented task creation, deletion, and completion tracking features.
- Applied DOM manipulation and event-driven programming to update the UI in real time.

Expense Tracker Web Application | HTML, CSS, JavaScript

Dec 2025

- Developed a client-side expense tracker application to record and manage personal income and expenses.
- Implemented features to add, delete, and categorize transactions, with automatic calculation of total balance, income, and expenses.
- Integrated browser localStorage to persist transaction data across sessions.
